

Dear Dr. Nassery, Dr. Davis, Dr. Laurence, Dr. Gordon, Anita, Jacky, Maylen, Donna, Yakima, Clara, Lynette, Bertha, LeAnne, and Lourdes,

Thank you all for your guidance and patience while teaching me this summer. Watching all of you work gave me a first hand look at how dentistry is supposed to be practiced (as opposed to what I will hopefully learn in dental school). I feel tremendously privileged that I was able to intern at such an extraordinary practice with an incredible staff. You taught me way more than just tooth treatment including office etiquette, patient care, business procedures, and the dynamics of a doctor-patient relationship. Observing all sorts of procedures performed with cutting edge technology inspired me to always think outside the box. Each of you provided me with insight and advice from your own personal experience that will assist me in becoming the best dentist I can be and for that I am truly grateful. See you at my next cleaning!

Sincerely,
Martha Baumgarten
